SUMMARY

I am a passionate Electronics and Communication Engineering graduate with a keen interest in software development. With experience in programming languages such as Java, C, and React, I have worked on several projects including chatbot applications and IoT systems. I seek an entry-level software engineering position to apply my skills and grow in a dynamic environment

EXPERIENCE

Placement Coordinator

KGiSL Institute Of Technology

- Placement Coordinator at KGiSL Institute Of Technology

PCB Design Intern

Altrazen Engineering

- Designed a **Sensor Interface Board** using **KiCad**, including schematic creation, component footprinting, PCB layout, and Gerber generation.
- Conducted hardware testing and debugging using **multimeter** and **oscilloscope** to validate board functionality.
- Collaborated with engineers to improve design accuracy and ensure manufacturability.
- Received an **Excellent** rating in internship performance feedback.

EDUCATION

B.E in Electronics and Communication Engineering

KGiSL Institute Of Technology

08/2022 - 06/2026 Coimbatore

Higher Secondary Certificate

GBHSS Nemmara

06/2021 - 05/2022 Kerala

Secondary School Leaving Certificate

GGVHSS Nemmara

06/2019 - 05/2020 Kerala

CERTIFICATIONS

Introduction to Web Development with HTML, CSS, and JavaScript – IBM

Blockchain Basics – Meta

Embedded Software and Hardware Architecture – University of Colorado Boulder

React Basics – IBM

Introduction to Internet of Things (IoT) – IBM

LANGUAGES

English	Fluent	**Malayalam**	Native
Tamil	Fluent	**Hindi**	Fluent

KEY ACHIEVEMENTS

3D Printing & Designing Workshop

Participated in the 3D Printing and Designing Workshop conducted at Karpagam College of Engineering.

Smart India Hackathon

Participated in the 24-Hour Smart India Hackathon (Internal Round) at KGISL Institute of Technology for the problem statement **Himachal Pradesh Bus Tracking System.**

PYEXPO Project Presentation

Participated in PYEXPO and presented a *Chat Bot Application* project at KGISL Institute of Technology.

Decentralized Banking Application – Paper Presentation

Presented a paper on *Decentralized Banking Application* at SONA College, Salem.

SkillRack Certifications

Certified in C Programming, Python 3.x, and MySQL on SKILLRACK.

SKILLS

SOFT SKILLS

Problem Solving · Critical Thinking · Communication · Team Collaboration · Adaptability

TECHNICAL SKILLS

Java · C · Python · SQL · HTML · CSS · JavaScript · IoT · Ki Cad · Embedded C · Flask · Git

PROJECTS

Chatbot Application

- Developed a Flask-based chatbot application using modern web technologies, featuring automated response handling, API-driven interaction logic, and a clean, responsive user interface.

Smart Saline Bottle Monitoring System

- Designed an IoT-enabled saline monitoring system using ESP32, load cell, and HX711 for real-time level tracking and automated valve control, with alerts via LCD and Blynk app
